CAREER OBJECTIVE

Java-focused software engineering student with hands-on experience in Spring Boot, REST APIs, and full-stack Java development. Passionate about building reliable backend systems and clean REST services. Looking to contribute to backend engineering at a product company and grow through structured real-world exposure.

EDUCATION

B.Tech – Information Technology - R.P. Sarathy Institute of Technology, Salem | Current CGPA: **8.5** 2023-2027

HSE – CSI Good Sheperd Matriculation Higher Secondary School, Salem | Percentage : 69 2022-2023

TECHNICAL SKILLS

Core Java:	OOP (Inheritance, Polymorphism, Encapsulation, Abstraction), Collections Framework (List, Map, Set, Queue), Exception Handling (checked/unchecked, custom exceptions), String handling, Generics
Backend (Basic):	Spring Boot, Spring MVC (@RestController, @Service, @Repository, @Autowired).
Languages:	Java, JavaScript, SQL(MySQL)
Frontend:	HTML5, CSS, Responsive Web Design, UI/UX Design
Database:	MySQL (SELECT, JOINS, GROUP BY, Indexes, Normalization basics)
Tools:	Git, GitHub, Postman, VS Code, Selenium, Maven (Basic), Railway, Netlify, Render.

INTERNSHIP EXPERIENCE

Java Developer Intern – NextGen Solutions (Virtual) 2024

- Used core Java technologies such as object-oriented programming and Collection classes while working on backend functions.
- Acquired experience in backend development as part of practical work during assignments and internship.
- Developed ability to debug programs due to active identification and correction of software defects

PROJECTS

TaskFlow – Task Management Web Application - Full-Stack Java Developer

Tech: Spring Boot · Spring MVC · MySQL · JPA · REST APIs · HTML · CSS · JavaScript

- Built a responsive task management application using Spring Boot with proper @RestController, @Service, and @Repository layer architecture following MVC pattern.
- Designed and exposed RESTful API endpoints (GET, POST, PUT, DELETE) consumed by a JavaScript frontend; handled request validation with exception handling and appropriate HTTP status codes.
- Configured MySQL database via application.properties for persistent task storage; used Postman to test and document all API routes end-to-end.

Chitly – Chit Fund Management System (Team Project) - Frontend Developer & UI/UX Designer

Tech: HTML · CSS · JavaScript · Node.js · Express.js | Live: chitly.netlify.app

- Built a mobile-responsive web interface to digitise 52-week chit fund workflows, reducing manual paperwork and payment-tracking errors for admins.
- Implemented secure JWT-based admin authentication with member-wise payment tracking and paid/unpaid status management across members.
- Added printable payment reports and a simplified digital workflow; deployed to Netlify for live access and shared with real users.

CERTIFICATIONS & ACHIEVEMENTS

Certifications

- NPTEL – Joy of Computing Using Python (Foundations in Python programming and computational thinking)
- Claude Code in Action – Anthropic (AI-assisted development workflows, automation, and GitHub integration using Claude Code)

Achievements

- 1st Prize – Project Expo 2025 (Smart Home Automation project recognised for innovation and technical implementation)
- 2nd Prize – Bug Hunt Challenge, NOVITAS 2K26, DGCT (Top 3 ranking for bug detection and software testing skills)

SOFT SKILLS & LANGUAGES

- Soft Skills:** Cross-functional Collaboration, Time Management, Problem-Solving, Growth Mindset.
- Languages:** Tamil (Native) · English (Professional) · Marathi (Conversational) · Hindi (Conversational)
